INSTITUTIONS SERVED

Since 2019
TRUSTED IN HIGHER ED

Product Description

You-Attend is a smarter attendance tool that lets instructors track student attendance in a variety of ways, directly inside **Brightspace (D2L)**, **Canvas**, or **Moodle** via LTI 1.3. Setup is easy — there are no registers to create. Exportable reports can be tailored to satisfy your needs, and the tool connects to the grade book to automatically update a student's grade when a new entry is made. Every You-Attend license now includes the **Attendance Toolbox**, a suite of engagement and compliance tools, at no additional cost. Contact the sales team to request your free 30-day trial.

You-Attend Features

- Three entry options: manual (instructor enters); in-class (code entry); online (automatic entry)
- Automatic registry creation (enter start and end dates and days course meets)
- Customizable attendance codes including partial credit availability
- Gradebook integration with automatic grade updates
- Exportable reports, tailored to your institution's needs
- Easy set-up and editing capabilities
- Interchangeable entry options (go from manual to in-class and back with no loss of data)
- Available in 14 languages

Today's Attendance PIN is:

035143

Enter the Attendance for **Thursday, 11 June 2026**

Note: Give your students the PIN listed above to allow them to mark themselves present for today

New: The Attendance Toolbox

Included with every You-Attend license at no additional cost. The Attendance Toolbox is a suite of LTI 1.3 Deep Linking tools that turn everyday course activities into attendance records — instructors simply add a tool to course content and entries flow into You-Attend automatically.

- **QR Code Check-In** – students scan a code in class to record their own attendance
- **Quiz Tool** – quick knowledge checks that double as an attendance entry
- **Word Search** – course-themed puzzle activity that records participation
- **Crossword Puzzle** – gamified review activity that records participation
- **Pass/Fail Roster** – Title IV / R2T4 attendance reporting for federal financial aid compliance

QR Code Check-In, embedded in the LMS

Geolocation lockdown: every Toolbox tool supports optional location verification, so check-ins and activities can be restricted to students who are physically in the classroom.

The Pass/Fail Roster is also available as a standalone compliance product for institutions that do not need full attendance tracking — contact sales for details.

Pricing

You-Attend's pricing is a transparent flat rate based on institutional FTE (full-time equivalency):

Institutional FTE	Annual price
Fewer than 5,000	\$2,500
5,000 – 10,000	\$4,000
10,001 – 25,000	\$8,000
More than 25,000	\$15,000

No per-tool fees, no add-on charges. The full Attendance Toolbox is included with every license. Free 30-day trial available.

Technical Specifications

LMS compatibility

You-Attend integrates with Brightspace (D2L), Canvas, and Moodle via the LTI 1.3 Advantage standard (Assignment & Grade Services, Names & Role Provisioning, Deep Linking 2.0).

Fully hosted SaaS — no installation

You-Attend is hosted on Microsoft Azure with data centers in the United States and Canada. No software to download or install — a simple LTI integration in your LMS, with clear documentation provided, and most institutions are up and running the same day.

Device independent

Works on PCs, laptops, Chromebooks, tablets, and smartphones in any current browser (Chrome, Edge, Firefox, Safari) with JavaScript enabled.

You-Attend is available in 14 languages. Features listed are guaranteed only when You-Attend is implemented according to our implementation guidelines; specifications may change without prior notice.
